

I am worship Pastor at Donahue Family Church. We have had the frustration in the past of trying to teach our members new praise choruses. Since KLOVE plays nearly all of the songs we use in worship, we have asked our members (nearly 1000 members) to listen to KLOVE to become familiar with our songs. In addition, there are many of our members who have decided to only listen to Christian music and KLOVE is the only contemporary station that plays all music. We need KLOVE. Our community continues to be positively affected by the lyrics of KLOVE music. They are a vital partner with us in ministry. Please don't take this vital tool from our community.
